Professional Summary

Creative UI/UX and Visual Designer with 2.5+ years of experience delivering multi-channel marketing creatives, responsive digital experiences, and brand-aligned visual assets Skilled in designing landing pages, email templates, digital ads, social creatives, and website interfaces that blend marketing performance with strong UX principles. Experienced in collaborating with marketing, product, and development teams to create cohesive customer experiences across web, print, and automation touchpoints.

UI/UX Designer | Product Designer

UX Designer *(Contract Role)*
Happiest Minds
December 2025 - Present
(Bangalore)

- Led end-to-end UX research and redesign for the Happiest Health website revamp, including user research, stakeholder interviews, persona creation, journey mapping, and information architecture.
- Translated research insights into wireframes, high-fidelity UI, and interactive Figma prototypes, improving usability, accessibility, and content discoverability across responsive web experiences.
- Collaborated closely with product managers, developers, and business stakeholders to align user needs with healthcare business goals, ensuring smooth design-to-development handoff and scalable design solutions.

Visual Designer *(Full Time)*
Webnox Technologies
May 2024 - July 2025
(Coimbatore)

- Enhanced responsive web and mobile interfaces across industries including B2B, e-commerce, and education.
- Improved user engagement by 25% through redesigned dashboards and landing pages (Onroadz, Amaramba).
- Established Figma prototypes and design systems, ensuring scalable and consistent user experiences.
- Delivered 10+ website UIs and mobile app designs, supporting brand and marketing initiatives.
- Collaborated cross-functionally with developers and clients to align product goals with user needs.
- Revamped the AJK college website's information architecture, resulting in a 20% decrease in bounce rate on key admissions pages and a 15% increase in prospective student inquiries.
- Delivered wireframes, visual designs, and interaction flows for applications across multiple industries.
- Collaborated on UI/UX design projects by integrating Figma prototypes with MCP server architecture to enhance real-time interaction.

UI/UX & Graphic Designer *(Full Time)*
High On Swift
May 2023 - May 2024
(Chennai)

- Generated marketing websites, dashboards, and app interfaces, aligning with business goals.
- Contributed to multiple brand identity projects including logos, brochures, and digital campaigns.
- Partnered with developers to optimize design-to-development workflow, reducing revisions by 30%.
- Gained expertise in user-centered design, information architecture, and usability testing.
- Developed responsive UI/UX for websites and mobile applications across various industries.
- Created compelling logo designs, posters, brochures, and web banners to support marketing and branding efforts across digital and print media
